In what year did you become a registered liquidator?

2025

Briefly summarise your work history.

I have worked in restructuring for 20+ years, incorporating time at McGrathNicol (where I am now a Partner), ANZ, Deloitte and FTI UK. I was in London during the global financial crisis and spent time as part of ANZ's Lending Services team where I managed a portfolio of high risk corporate and institutional customers.

Throughout my career I have worked across complex insolvencies and a range of advisory mandates.

I have also been involved with the TMA as part of the VIC Committee and the Network of Women.

Which external administration/receivership has been a career highlight for you, and why?

The Voluntary Administration of Probuild in 2022 was one career highlight. During the VA process we were able to continue works on a number of key projects, which enabled a successful restructure and sale of the Victorian business.

The completion of the Centro Properties Group restructure via schemes of arrangement was another career highlight – having been involved in the restructure between 2007 and 2011.

What industries do you have experience in?

- Property and construction
- Manufacturing
- Health and human services
- Government
- Agribusiness
- Not for profits

What is your advice for aspiring registered liquidators?

Consistent with any career, ongoing and consistent investment in development and relationships is critical. As a registered liquidator, you also need to be mindful of the role you play in the economy and your duties.

While technical skills are always an important foundation, in today's environment you are commonly relying on collaboration to secure good outcomes – so your approach to aligning stakeholders is key. Hone those skills.

What are your other interests?

Outside of work I spend most of my time with family. I love to travel and enjoy good food and wine.
