- FCCA

Profile Overview

Shirvine leads the energy transition and infrastructure transaction team in Sydney with extensive international experience across the APAC and EMEA regions. She has established a strong reputation for delivering large-scale cross-border renewable power, energy, e-fuel, green commodities and infrastructure projects.

Shirvine combines expertise in energy sector, project finance, mergers and acquisitions, with a detailed understanding of regulatory frameworks, policy, and funding mechanisms that underpin the energy transition. She has advised boards, governments, utilities, developers and investors on energy transition projects as well as shaping early-stage cleantech ventures and market entry strategies. Shirvine helps clients navigate regulatory, commercial, and financial complexities to deliver energy transition projects with executable, bankable and sustainable outcomes.

Selected Professional and Industry Experience

- **Confidential** – acting as the lead advisor on the sale of two renewable hubs totalling 3GW of wind, solar and BESS greenfield development in Australia.
- **Confidential** – Leading the advisory to an international consortium on its acquisition of an onshore wind greenfield project in Australia.
- **Confidential** – Leading the advisory to an Australian developer on the sale of a hybrid 400MW solar PV and 400MW/1,600MWh BESS project in Australia.
- **Confidential** – acting as the lead advisor on the sale of a small energy retail business in Australia.
- **Confidential** – Leading the advisory to a European Investment Manager on the sale of a hybrid Solar PV and BESS project in Australia.
- **Confidential** – Leading the advisory on the sale of an established VPP platform in Australia.
- **Confidential** – Leading the advisory on a grant funding application for a utility-scale BESS greenfield project in Australia.
- **Hive Energy Albamed Renewable Hub** – Led the development of a 7.5GW renewable energy hub in South-East Spain, integrating solar PV and onshore wind with utility-scale energy storage and a dedicated power grid. Shirvine led the strategic pivot of this renewable hub towards a modular and phased model and established partnership with data centre developers to enable co-located facilities and offtake strategies with regional data centres.
- **Hive Energy Coega Green Ammonia Project** – Led the development of a greenfield green ammonia project integrated with 3.6GW onshore wind and solar PV generation, utility-scale long-duration BESS in South Africa. Shirvine led the equity fundraising strategy and process to secure the anchor investment of USD20million from CFM and while overseeing discussions with a multi-ECA led debt financing club.
- **Confidential** – Led advisory on formulating fundraising strategy and process to a renewable development platform with a portfolio of 10GW solar PV and BESS in Europe.
- **Solberg Wind Farm** – Led the advisory to a Chinese SoE in connection with its acquisition of Solberg wind project in Sweden.
- **Invis Energy** – Advised Red Rock Renewables on their bid to acquire Invis Energy's majority stake in five wind farms in Ireland.
- **Novenergia Renewable Fund** – Led the advisory to Datang on its acquisition of Novenergia's EUR1.2 billion renewable portfolios in Europe, with a focus on bid strategy, bid proposal preparation, financing structuring and valuation.
- **TTPC Islamic bond** – Led the advisory to TTPC on issuance of two Islamic project bonds to refinance of its 650MW CCGT IPP and shareholder's syndicated loan in Malaysia.
